

THE QUALITY AND FOOD SAFETY POLICY

QUALITY AND FOOD SAFETY POLICY

At UBC Chemical our products and processing methods regularly undergo audits and supervisions to safeguard that they comply with the certifications, standards, and regulations that guarantee you safe, healthy, and sustainable solutions.

Our Quality and Food Safety Management system were established in accordance with the conditions determined in the standards. We use accredited third-party organizations to verify that our production facilities operate sustainably and that every final product complies with specific standards for safety, quality, and environmental protection.

To become an exemplary organisation in our industry without compromising occupational safety and health, we have adopted the following objectives:

- The quality management system must include management of all relevant processes with an impact on quality and food safety. It must be ensured that the employees who handle food safety and quality-related tasks have the right competencies for the quality system to be efficient.
- The company's quality management systems must live up to the requirements of the current version of the BRC and ISO 9001 standards.
- We will ensure the construction and implementation of an efficient HACCP system that ensures systematic management at all stages from the purchase of raw materials to the delivery of finished products to our customers.
- Critical Control Points (CCPs) to be identified, monitored and recorded, and the food safety management system to be frequently audited by our quality team.
- To continuously comply with applicable legal requirements.
- To produce safe and quality products in accordance with customer demands, suggestions and the conditions determined by the related standards.
- At every stage of the supply chain; to ensure the protection of product safety, originality and quality by prioritizing human health.
- To produce safe, original and high-quality products that are sustainable.
- Management to actively follow up on achieved results and work to improve the quality system so that the goals are achieved.

All the employees of UBC Chemical are committed with the accomplishment of this Policy.
